Warning!
Parents, please preview this and any other websites for appropriateness.

Use the information at www.studentsoftheworld.info (or another resource) to find out the top names of the country you are studying. Write your favorites onto the scrolls. When you are done, staple them together and then paste the very bottom of your mini-book onto your notebook page or lapbook.

If you use the students of the world site, the information is in the penpals section, under statistics.
